HUBER NEWS

EDITION 3 | 2024

Georg Huber, CEO

Dear Reader,

IFAT is now just around the corner. Of course, HUBER will again be represented with a stand at the [world's leading trade fair for environmental technologies in Munich](#) from 13 to 17 May. A stand area of more than 1,300 m² will allow us to show customers and interested visitors more than 50 product highlights, including the premiere of the [HUBER Sludge Turner FloorRunner[®] for solar sewage sludge drying](#).

For a long-term and trustful co-operation with the customer, a professional and always available service is indispensable. The signing of the [1,500th service and maintenance contract between our Global Service team](#) and a sewage treatment plant in Germany underlines our endeavours to guarantee this at all times.

If you require further information after reading this newsletter, do not hesitate to contact us. Or take a look at our [redesigned website at \[www.huber.de\]\(http://www.huber.de\)](#).

I hope you enjoy reading this newsletter!
Yours sincerely,

Georg Huber

Premiere of the HUBER Sludge Turner FloorRunner at IFAT 2024®

HUBER will exhibit the HUBER Sludge Turner FloorRunner® for the first time at IFAT 2024. The special feature of the further development is the elimination of the lateral concrete driving walls, which reduces the costs of the overall plant.
