Put your trust in our many years of experience and expertise in the various fields:

**WASTEWATER AND
RESIDUE TREATMENT**

**EFFICIENT SLUDGE
TREATMENT**

**HEAT RECOVERY
FROM DIRTY AND WASTEWATER**

Full support for our customers

Our comprehensive support approach ensures that your wastewater and residue treatment requirements are optimally met.

We accompany you from planning to implementation and continuous optimization.

BEST PRACTICE

Tailored solutions

With personal and individual advice, we determine the technical fundamentals and requirements of your needs through tests, trials and empirical values.

IMPLEMENTATION

From concept to commissioning

Our experienced team of project management, service and process specialists takes care of the planning, installation and commissioning of your systems. We train your staff in how to use our technology.

AFTER-SALES SUPPORT

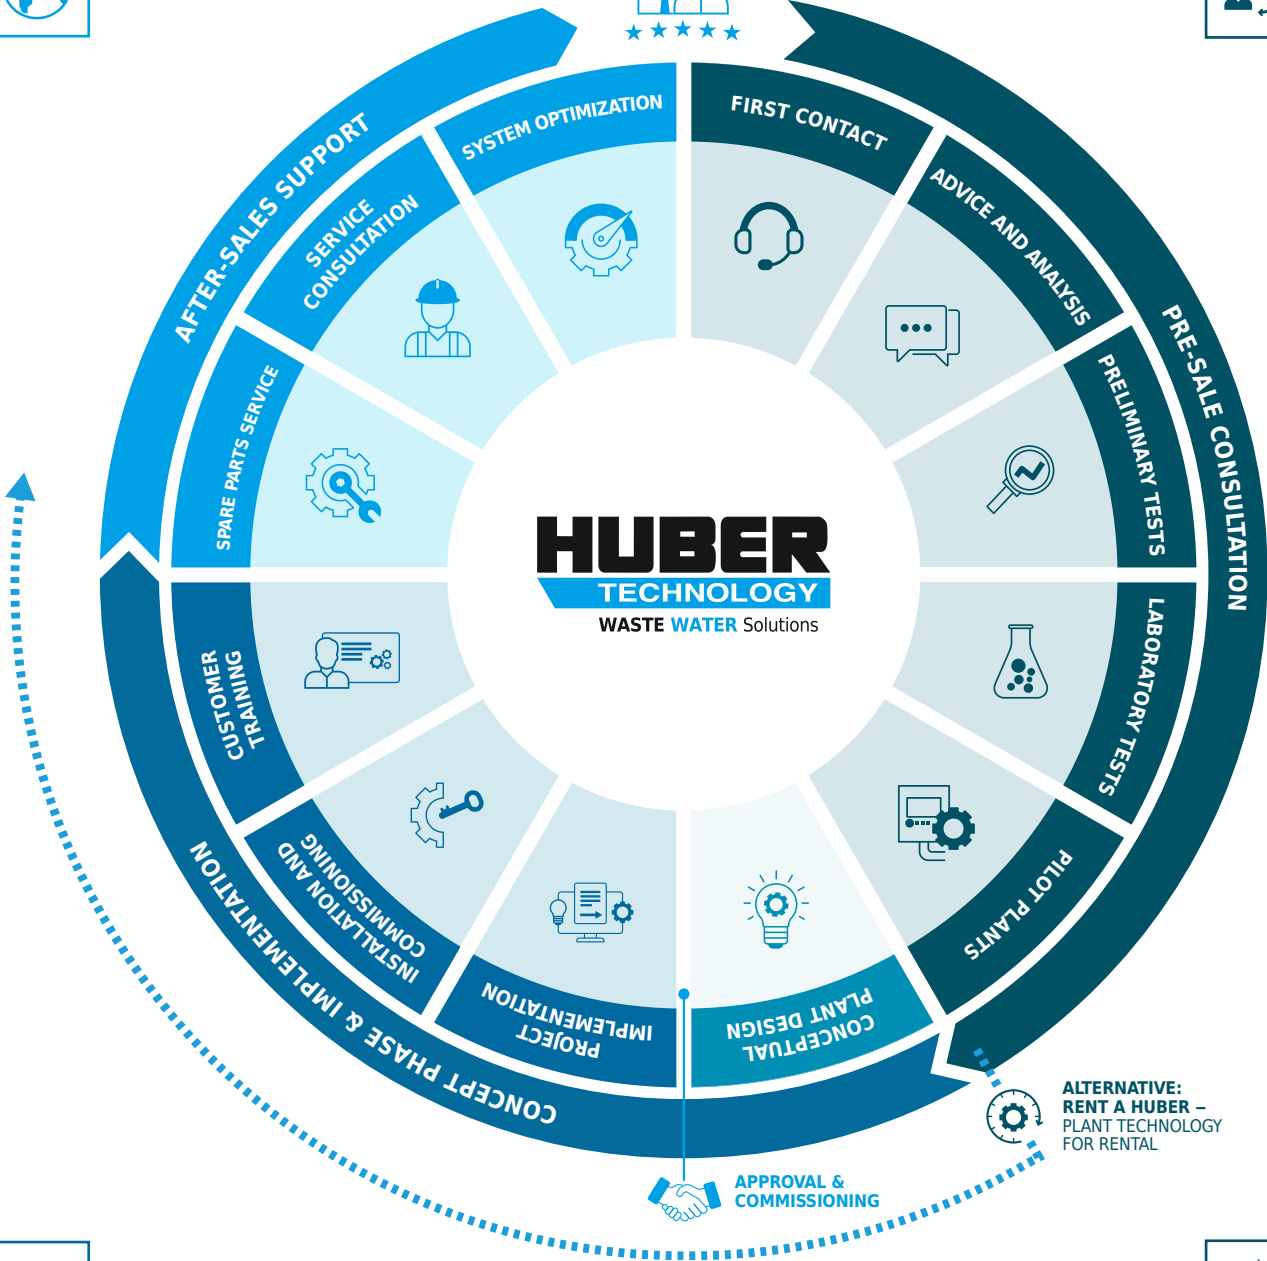

Maintenance and service contracts guarantee sustainable use of your machine. Our team is available worldwide at all times for fast problem-solving and reliable spare parts service.
